Good Day to Die

Travis

Where is your mother?
Where is your father?
Two little children
Locked in the cupboardInto the wide world
High on the high wire
What would you give to fly away
Away, away, away, away?Girl with the flower
Boy with the hammer
Lost in a forest
On another planetFind me the exit
Find them the way home
Find all the love they took away
Away, away, away, away'Cause your head is a brick wall
And your heart is a football
And your eyes broken windows
When you cry it's a good day to dieAnd your head is a brick wall
And your heart is a football
And your eyes broken windows
When you cry it's a good day'Cause your head is a brick wall
And your heart is a football
And your eyes it's a good day to dieTo die
To die
To die
