

# You Could Never

## Sarai

[Verse One]

I don't bust guns, I bust rhymes to see funds  
Four-four caliber tongue, you want some?  
Let me know, K.O. flows, ya gots none  
Let me know, that you don't speak 'til I'm done  
And ya know, double-S straight to ya chest  
Storch and Sarai, now who the best?  
He's all I work with y'all, nuttin less  
Infra-Red's the click I rep to the death  
Hold tight, see light ya just might  
Back hand like Van Damme all on the mic stand  
.. go off like Lara Croft  
Fire hair, hard body, killin you so soft  
Like it better when they turn the lights off  
Get gone, get in the zone, let's get it on  
It's a shame, you was smilin when you came  
Cryin when you left, what, thought it was a game?  
c'mon[Chorus]

No matter what they say, I'm just gon' do my thing  
Straight up hurt this game, y'all know you could never hold me  
Though they hate a lot, I still come out on top  
Try to take my spot, y'all know you could never hold me[Verse Two]  
I got, nuttin but hits that's hot  
Came in at the top from the first single dropped  
I'm everything that yo' not, takin yo' spot  
I Sarai be the sho' shot  
Soon as I stepped on stage I blow spots  
Got Liberace feelin my ghost, I glow rocks  
Sparklin baby, like Perrier pop  
Got demos at the crib that ain't never been copped  
Better, when they put me under pressure  
The secret weapon, I'm the hidden treasure  
Diamond in the rough, carats beyond measure  
Bars I drop for y'all, my pleasure  
Hoodie or the high heels, whatever is whatever  
Videos with the ass hangin out, never  
Can't see a dime from here, yo listen  
Get a prescription, holla at Pearle Vision[Chorus] - repeat 3X
