The Written

Psordid

Words written with the grace of Light
In the book I'm compelled to read
In these words I understand
For they have come from Thee

It is written

Again I'm before the book of life
That made me what I am
In these words I understand
For they have made me a man

It is written

These words
That were not mine
These words
Will live through time
These words
That come from Thee
These words
They live in me
