

Land of Idiocracy

Useless ID

Fuck the country that just feeds irrational inquiring needs
Fuck the warnings in the mornings, I won't bend
Fuck the prepaid pension plan cause time always has other plans
This cycle of life is not meant for me Fuck it if there's a consequence, we might not get another chance
The bible is just a book, look at the lives it took
Fuck the right wing orthodox, the replicating idiots
The governments, the thieves and the crooks I'm a loose cannon brat
Our lives interact
You'll never convince me to be
We live inside a box
And quickly we rot
In the land of idiocracy Fuck the grave you set for me
This body is going straight to sea
If I can't save the planet, I'll become a tree
I did so much with all my time
I'm not ready yet to cross the line
Into adolescent debris
