Keeper of the Fire

Poco

Somebody called the keeper of the fire
Holy smoke, I hope he ain't no liar
'Cause I've heard tell that while we're sleeping
All is well and safely keeping, we're only seekingThen it came a morning, we were feeling just the same
Caring less, let it snow itself to rain
Easy summer, and we're hung out high and dry
Somebody save us from this feeling, feeling in our eyesLookin' out there was a new light burnin'
I turned about, everyone there kept on turnin'
Came on through like a childhood yearnin'Somebody called the keeper of the fire
Holy smoke, I surely hope he ain't no liar
'Cause I've heard tell that while we're sleeping
All is well and safely keeping, we're only seekingLookin' out there was a new light burnin'
I turned about, everyone there kept on turnin'
Came on through like a childhood yearnin'Lookin' out there was a new light burnin'
I turned about, everyone there kept on turnin'
Came on through like a childhood yearnin'Lookin' out there was a new light burnin'
I turned about, everyone there kept on turnin'
Came on through like a childhood yearnin'Lookin' out there was a new light burnin'
I turned about, everyone there kept on turnin'
Came on through like a childhood yearnin'Lookin' out there was a new light burnin'
