Life Is For Living

Barclay James Harvest

You and me, our life is driftin' along
Watchin' the world as it's singin' its song
High above, someone is callin' to me
Life is for livin' and livin' is freeYou to me, are like the sun in the sky
See how you fly, you have wings of your own
You and me, our love will last without end
Ride with the wind, won't you follow me home?Turn around and see the circles we spin
And we're takin' our chances on where we begin
Up above, the rain is fallin' on me
Life is for livin' and livin' is freeYou to me, are like the sun in the sky
See how you fly, you have wings of your own
You and me, our love will last without end
Ride with the wind, won't you follow me home?Takin' up time tryin' to write a line till the break of day
Given a sign, can you make it rhyme, tell me what to say?
Makin' it fine, can you ease my mind, help me drift away?Turn around and see the circles we spin
Takin' our chances on where we begin
Up above, the rain is fallin' on me
Life is for livin' and livin' is freeYou to me, are like the sun in the sky
See how you fly, you have wings of your own
You and me, our love will last without end
Ride with the wind, won't you follow me home
