The Last Vampire

Dj Bobo

Legends never come undone
The last vampire
Living and forever young
The last vampire
VampireWelcome, to a secret world
My gift is a thousand years
My precious, you'll be forever mine
You don't have to drown in tears I'm left to be the only one
I'll never gonna see the sun
I'm living in the dark, believe me
You are my destiny, you're my obsession Legends never come undone
The last vampire
Living and forever young
The last vampire
You're never gonna see the light
You're a creature of the night
You will live eternally
The last vampire
Vampire Surrender and I will show you life
So mystical and bizarre
A world where there's no time and space
A vampire's what you are
It's what you areI want you to enjoy the ride
I'm strong as the rising tide
Temptation fills my venes with passion
You are my destiny, you're my obsession Legends never come undone
The last vampire
Living and forever young
The last vampire
You're never gonna see the light
You're a creature of the night
You will live eternally
The last vampire
