Hold The Dream

Firehouse

Aah
When you're lost and lonely
And you feel you can't go on
In the blink of an eye
You could throw it all away
You can turn your world around
Show them all what you can do
Just believe and trust your heart
To see you through
Your dream so real
You can feel it in the palm of your hand
So hang on to tomorrow
And never look back again
Hold the dream
Don't ever let it go
(Hold the dream)
Don't ever let it get you down
When they turn their back on you
Just do what feels right for you
You can find what you're looking for
Don't get lost along the way
Always be strong, your heart can't be wrong
Don't give up and your dreams will come true
It's so real
You can feel it in the palm of your hand
So hang on to tomorrow
And never look back again
Hold the dream
Don't ever let it go
(Hold the dream)
Hang onto tomorrow
(Hold the dream)
Don't ever let it go
(Hold the dream)
Hold the dream, ahh
Ooo, hold, hold the dream
Oh, don't ever let it go
Hold the dream
Hang on to tomorrow

Whoa, don't ever let it go
(Hold)
Hold the dream
Hold the dream
