Fork In The Path (David Marston & Dan Izco Remix)

Life on Planets

Fork in The Path
Well well,
Here we are again
The truth is not so deep
Grey and red
All up in your head
The truth is not so deep
Angel and a demon
Rolled into one
Expectations
You treat me like an animal
I treat you like a harlequin
Theres no respect
Itâ€™s not a match
Theres no time to work things out
Fork in the path
I go my own way
But you forgot that line
Follow your heart
That path might lead you astray
Expectations
If it aint today
What will it be tomorrow
Are you the one?
Itâ€™s not a match
Theres no time to work things out
Fork in the path
I go my own way
Infatuated lifted the terms
Well we did it
We made something
Out of nothing
We made something
It was everything
Fork in the path
