My Family Tree

John Vanderslice

Dad, I watched you fall
And split your head on the dock
I couldn't bear to see a lion so meek
In the Francis Jay Memorial Wing, so I never cameMy family tree is me
My family tree is me
My family tree is me
My family tree isAngela, sister near
Once, stripper severe
Your husband Donnie is pure fear
So I stay clearMy family tree is me
My family tree is me
My family tree is me
My family tree isMother dear, your eyes are lost
Gunpowder shot
Gun tossed, there's nothing left to brood
I lost you tooMy family tree is me
My family tree is me
Now my family tree is me
Now I'm set free
