

# My Family Tree

## John Vanderslice

Dad, I watched you fall  
And split your head on the dock  
I couldn't bear to see a lion so meek  
In the Francis Jay Memorial Wing, so I never came  
My family tree is me  
My family tree is me  
My family tree is Angela, sister near  
Once, stripper severe  
Your husband Donnie is pure fear  
So I stay clear  
My family tree is me  
My family tree is me  
My family tree is Mother dear, your eyes are lost  
Gunpowder shot  
Gun tossed, there's nothing left to brood  
I lost you too  
My family tree is me  
My family tree is me  
Now my family tree is me  
Now I'm set free
