Xerox

Diverje

I suffer for my sanity every night
But I won't know
I forgot where I come fromThe record spins with the beat of a
Vague fragility of my memories
Moving on into no direction moving on, moving onAre you there all this time
Turn this pages over againWhat if I knew it all
And who killed whoAre you there all this time
Turning them pages over againAre you there all this time
Turn the pages over againAre you there all this time
Turn the pages over again
