

# No Regrets

## Mikey Wax

You're a tough love  
hard to follow  
Your strong heart might leave me hollow  
But I won't regret a thing  
And although the pain and sorrow  
Might come my way tomorrow  
I won't regret a thing  
If you're in  
Say you're in it for good  
If I give love  
I want to get it back  
If you're in  
Say you're in it for good  
Cause I never wanna try to have to love again  
If cold winds should drown the laughter  
Know hands down you're the one I'm after  
So let's love with no regrets  
Should words not come out clever  
We'll laugh cause you know me better  
And we've loved with no regrets  
If you're in  
Say you're in it for good  
If I give love I want to get it back  
If you're in  
Say you're in it for good  
Cause I never wanna try to have to love again  
In the winter I'll warm your hands  
And I'll tell you time and again  
How you're all I need  
There is no love to ever compete with
