

Honey Chile

Fats Domino

You will never win wonderful charm
But I love to hold ya in my arms
Only you can fill me like you do
So hold let kiss for a long, long while
You know why I love you honey chile I love to hear you whisper low
You know, you really thrill me so
Only you can fill me like you do
So please don't put me on that shelf
You know, I can not help myself I am happy as a baby boy
You ain't nothin' but a bundle of joy
Only you can fill me like you do
Bend your legs and pigeon toes
You know why I love you goodness knows You will never win wonderful charm
But I love to hold ya in my arms
No one can fill me like you do
So hold let kiss for a long, long while
You why I love you honey chile
