Brake! Brake!

Go:Audio

Go, but the lights are red,
We waited on the starting line,
I can hear my heartbeat melt so drive.
& yeah, dont waste no time,
Strap yourself in dont be shy,
Tonight..The road we dont know says to drive slow,
Were going to fast, were going to fast,
I couldnt stop if I wanted to try,
Now..Brake,Brake,Brake,
But a moment just to late,
For gods sake,
This life I just cant waste.
As hearts brake,
& the clock it stops in time,
Were going..Down,Down,Down
& the shouting screams they drown
No sound,
But the shutters crack so loud
I shout out,
'Cos I think were going under,
Under.The sky turns red,
The silent screams ring in my head,
Again.
Burning fills the air around,
I dont think i'll be found..
Lying here.The road we dont know says to drive slow,
Were going to fast, were going to fast,
I couldnt stop if I wanted to try,
Now..Brake,Brake,Brake,
But a moment just to late ,
For gods sake,
This life I just cant waste.
As hearts brake,
& the clock it stops in time,
Were going..Down,Down,Down,
& the shouting screams they drown,
No sound.
But the shutters crack so loud,
I shout out,

'Cos I think were going under,
Under.Brake,Brake,
This is more than I can take,
For gods sake,
Help me get out of this place.
I cant wait cos im cold and left alone,
I shout out but no one hears my calls.Brake,Brake,
This is more than I can take,
For gods sake,
Help me get out of this place.
I cant wait cos im cold and left alone,
I shout out but no one hears me.Brake,Brake,Brake,
But a moment just to late,
For gods sake,
This life I just cant waste,
As hearts race,
& the clock it stops in time.
So help me..Brake,Brake,Brake,
But a moment just to late,
For gods sake,
This life I just cant waste.
As hearts race,
& the clock it stops in time,
Were going..Down,Down,Down,
& the shouting screams they drown,
No sound.
But the shutters crack so loud,
I shout out,
'Cos I think were going under,
were going..Down,Down,Down,
& the shouting screams they drown,
No sound.
But the shutters crack so loud,
I shout out,
'Cos I think were going under,
