

The Rock

The Alarm

I'm a man who bites hard on the bullet of silence
If only you could feel the pain I hide
Know me, like I know you Still water running deep in the cavern of my soul
So many roads lead nowhere
Know me, like I know you Like a rock, waves clash over me
Standing silent, waiting to be set free The rock, the rock, the rock
Will never let you down
The rock will never fall
Or tumble to the ground
The rock, the rock, the rock
Will never let you down
The rock will never fall
Or tumble to the ground
Like a rock I've been accused of being many things
None of them ever hit the mark
Know me, like I know you Like a rock, waves clash over me
Standing silent, waiting to be set free The rock, the rock, the rock
Will never let you down
The rock will never fall
Or tumble to the ground
The rock, the rock, the rock
Will never let you down
The rock will never fall
Or tumble to the ground
Like a rock The rock, the rock, the rock
Will never let you down
The rock will never fall
Or tumble to the ground
The rock, the rock, the rock
Will never let you down
The rock will never fall
Or tumble to the ground
Like a rock Hiraeth, hiraeth, hiraeth, hiraeth
