

# Love Song

Ben Lee

Can't get away from a fun song  
A pop song, I'm gonna write my swan song  
Can't get it happening to write a love song  
Always bring in rock 'n roll, always bring in dumb stuff  
It's not about your jokes  
It's not about your name  
It's not about the way you hurt me  
Every single day  
Every boy in the world  
Writes a song for a girl  
For every girl in the world  
I'll write a cool song  
A new song, a pop song  
I'll write a love song
