Christmas Is Starting Now

Big Bad Voodoo Daddy

Grab some holly and mistletoe
'Cause we're gonna go out tonight
We're gonna bask in the electric glow
Of a million little colored lightsWe've got a lot to do before the dawn
So with a minimum of introspection
I think you've better put your mittens on
Shake your jingle bell in my directionSometimes I feel like a big snowman
That's fallen under a plow
But tonight I'm on top of the world
We're gonna bring it around somehowChristmas is starting now
Oh yeah, Christmas is starting now
That's right, Christmas is starting now
Oh yeahYou better hang those stockings on the wall
This is no time for procrastination
We gotta trim the tree and deck the hall
That's gonna be a celebrationJust a few short hours 'til Santa comes
So get ready for the big finale
We're going use night visions of sugar plums
And shake it like a bowl full of jellySometimes I feel like a big snowman
That's fallen under a plow
But tonight I'm on top of the world
We're gonna bring it around somehowChristmas is starting now
Oh yeah, Christmas is starting now
That's right, Christmas is starting now
Oh yeah, Christmas is starting now
That's rightSometimes I feel like a big snowman
That's fallen under a plow
But tonight I'm on top of the world
We're gonna bring it around somehowChristmas is starting now
Oh yeah, Christmas is starting now
That's right, Christmas is starting now
Oh yeah, Christmas is starting now
That's right, Christmas is starting now
Oh yeah, Christmas is starting now
Right now, yeah
