

Whole Lot More Than That

[Toby Keith](#)

If I want a new truck, gonna need more money

If I want more sugar, gonna need a new honey

If I'm going to the dance, gotta get a new hat

Getting over you's gonna take me a whole lot more than that
If I'm gonna watch a game, gonna need me a boob
tube

If I'm gonna to the lake, gotta take an igloo

If I'm gonna catch a buzz, gonna need me a twelve pack

Getting over you's gonna take me a whole lot more than that
Going to need more whiskey, than one man can
drink

Drown this memory, that just won't sink

I've hit rock bottom, in this bottle of Jack

Getting over you's gonna take me a whole lot more than that
If I need me a hangout, I'll find me a hot spot

If I need me a new song, gonna find me a jukebox

If I need me a kitty, I'll find me a cat

Getting over you's gonna take me a whole lot more than that
Going to need more whiskey, than one man can
drink

Drown this memory, that just won't sink

'Cause I've hit rock bottom, in this bottle of Jack

So getting over you's gonna take me a whole lot more than that
Going to need more whiskey, than one man can
drink

Drown this memory, that just won't sink

I've hit rock bottom, in this bottle of Jack

Getting over you's gonna take me a whole lot more than that

Getting over you's gonna take me a whole lot more than that
Gonna take a little bit more than that
