It's Alright

No Secrets

The world keeps spinning, but it's moving to slow
Feels like somehow you've reached the end of the road
Look for the meaning but nobody knows
People try to sell the truth, just ain't enough for me and youWhen all your worries keep on pushing you down
You're trying to find a way to get off the ground
People keep saying you won't turn it around
Someday you will find your way, so listen when I say thatIt's alright
We'll make it happen, baby
All night, I'll make you see thatIt's alright
Let's make it turn around
The world is ours tonight
This time let's do it rightNo need to tell us 'cause we know what we want
Won't lose direction 'cause we know where we're from
Make the connection and you'll never go wrong
If they try to bring you down just turn it aroundLoving you, never hurts
Never wrong, always works
Every day, take our time
I feel love I depend onAnyway, I see a sun ray
What you see, smile made of day glow
Never walk, never turn around
Hold your head up, don't look downIt's alright
We'll make it happen, baby
All night, I'll make you see thatIt's alright
Let's make it turn around
The world is ours tonight
This time let's do it rightIt's alright
We'll make it happen, baby
All night, I'll make you see thatIt's alright
Let's make it turn around
The world is ours tonight
This time let's do it rightEvery day, every night
Keep it coming till the morning light
Won't stop, gonna shine so bright
Making sure that it's alrightMake a change, gonna get us in place
Getting ready for the next stage
Break it down, make it turn around
Just listen to this soundIt's alright
We'll make it happen, baby
All night, I'll make you see thatIt's alright

Let's make it turn around
The world is ours tonight
This time let's do it right
