

Had Enough

Avant

Oh, oh-kay, oh, oh, baby, oh, oh
I'm with your girlfriend
(Girlfriend)
You stay on my mind
(Girlfriend)
You givin' in all the time
(Girlfriend)
I know you can't be mine 'cause you're somebody else's girlfriend
First time you let go
He was at the bar, you was on the floor
Body's off the map, it's sweeps and flow
Weak in the knee with a smile on your love
Two rings on the cell
Can't leave a voice mail
Oh, he don't need to know
Times that we meet at the hotel suite
So ready for another round
Tell me when you really, really went out
Probably hangin' out with your girlfriends
That's cool, it don't matter, you can bring them all too
Are you booked for the night?
If you're not then your man ain't doin' right
Let me handle that, you're so good
Come mess with your boy
I know we'll make it work that
So it ain't gon' stop till you've had enough
(We can keep it like that)
(Girl, don't worry, we can keep it like that)
All night long, I won't hurt bad
And I ain't gon' stop till you've had enough
(We can keep it like that)
(Girl, don't worry, we can keep it like that)
Ah, remember when you let go
Grasping your hair, boy, shakin' your walls
Sexual G's, your screams, moan
Since you've had a taste, will you let me, let me know?
Ayo, freakin' out of control
I'm in the plan, let's cast your role
You can be the stripper, I'mma bring the porn

I'll pop like and drop it out in clubs

So ready for another round
Tell me when you really, really went out
Probably hangin' out with your girlfriends
That's cool, it don't matter, you can bring them on too
Are you booked for the night?
If you're not then your man ain't doin' right
Let me handle that, you're so good
I'm gonna be ready
I know we'll make it work that
So it ain't gon' stop till you've had enough
(We can keep it like that)
(Girl, don't worry, we can keep it like that)
All night long, I won't hurt bad
And I ain't gon' stop till you've had enough
(We can keep it like that)
(Girl, don't worry, we can keep it like that)
Just my temporary love affair
You know I know you gotta get home
But right now we better get it on
Once I go deep, it ain't even fair
The way our world is changed
I'mma make you wanna stay with me
I know we'll make it work that
So I ain't gon' stop till you've had enough
(We can keep it like that)
(Girl, don't worry, we can keep it like that)
All night long, I won't hurt bad
And I ain't gon' stop till you've had enough
(We can keep it like that)
(Girl, don't worry, we can keep it like that)
Just my temporary love affair
You know I know you gotta get home
But right now we better get it on
Once I go deep, it ain't even fair
The way our world is changed
I'mma make you wanna stay with me
Say it, hey, hey
Say it, hey, hey
Say it, hey, hey
?
