The Big Man

Chubb Rock

The bigger of the biggest made a hit list
Not a lot of people but a sequel so witness
The evolution of a seed planted four years ago
And now the offspring today is the new thingThe people wanna jock but if they won't here's a quote
Jealousy has arisen but don't sweat it
And in this particular case don't let it
Hold you back from pledging allegiance to thisAnd your girl wants a kiss but I have my own miss
On my side 'til the skeezer in me died
Like the Grave to the John, the Crosby to the Bing
The Dave is to the Benny and the Big Man is readyTo take a stand for all big mankind
And I'm gonna succeed with the rhyme
So potent that a consultant said that rappin' rodents
Have two thirds of my intelligence quotient and knowin'Just that secures me from all the muskrats
And my degree tells me I don't must rap
But the fans of hundreds of grands know I slam
Love the jams of the big man, chorusA big man, a big man
A big man, a big manUh, his lyrics are so extraordinaryThe big man on the campus want people to chant this
And I mean this if I have to I will get fiendish
And you will be the main course of a mean dish
Scrub, Sucker a la ChubbThe plate will be a test or your test of fate
To see if you have any kind of heart you fart
I'm a soloist and knowin' this you better grow an extra fist
I'm not Razor Ruddock but you'll land on your buttockBack up move, you're dealin' with a rudebwoy
Raggamuffin with a funky somp'in
Listen, Chubb is the one on a respect mission
Ignorin' all that BS that you're dishin'Out cause the man with the clout came forth
To show who's the boss, lyrical force
Rethoryke monarch to spark the plan
For the Chubb's the big man, chorusA big man, a big man
A big man, a big manWell I don't think that my lyrics are
That extrordinary but uh I do think
That me and Howie do have a diverse style of musicThe Bigger Man used to be a trigger man
Bang was the slang for the one man gang
But now with a plan with a few called the A-Team
Diggidy and the Swinga will paint the whole scenePaint the background first that means we rehearse
Exercise cardiovascular and then the thirst
Will be quenched, the throats will be drenched
With the finest wines when we dine'Cause 1989 was an okay year
I mean I lived through it in 1990 I'm gonna do it

Climb the mountain of the hits
Put a number 1 joint at the tip if it fits
And if it is a size too small, yes y'allA new creation for the nation
'Cause I'm here for the duration
Like the pilgrim village when they claimed this land
Gave birth to the big man, chorusChubb Rock is definitely comin' out
With a different style this year, he'sA big man, a big man
A big man, a big man
A big man, a big man
A big man, a big man
