Body to Body

Ela Bulut

Body to body
Funky to funky
We know how to rock your partyCome on come on with the sound
Whatcha saying uh uh go
Uh uh uh uhMama said
'don't you play around town' don't play
But I just can't control myself wassup
Picking up that boy tonight
Ain't gonna put him down 'til it feels all right na na naPeople stop and stare
'cos he's looking fair here it goes
Come on over baby let me show you how I care come on then
It's getting hot in here one two here we're coming all right
My biorhythm's jumping
Got my circulation pumping
We areBody to body body to body
Funk to funky
We know how to rock your party come on come on
Oh oh oh
Body to body body to body
Funk to funky
We know how we're wreckin' up your partyIt's physical physical
Not just spiritual attraction uh uh
I hear you coming when I ring the dinner bell ding ding
Got my phaser set to stun
Now we're gonna have some funI got my people up inside
Baby wanna ride giddy up giddy up
Party's fairly jumping but we're gonna have to slide
I need a miracle keep it come through
Turn it up a little higher
The roof is on fire
We areBody to body body to body
Funk to funky yeah
We know how to rock your party yeah
Body to body body to body
Funky to funky funky to funky
We know how we're wreckin' up your party wreckin' up your party
