Disappear

Blue Rodeo

You always say
That I get it too late
Or not at all
So then it shouldn't seem so strange
That I would sing you a love song now
Because I feel like
I'm gonna fall
(chorus)
You closed your eyes
You made a wish
You laughed and looked at me
And said what are you still doing here
That was before I learned how
To disappear (repeat)
It was a strange day
We went down to the sea
To watch the waves
And of course it had to rain
Still you danced in and out along the shore
And in your hand
You held a sand dollar
(chorus)
There is a place
In my heart
That is yours
And I'll always respect
Because some times
I lose sight of the miracle
Find myself going round and round in circles
(chorus)
