

# I Want Your Love

## Chromatics

When I came to this world

I arrived in a car

I was a boy

I was a girl

pyramid glass

scaraping the sky

see our reflection

cast no reflection

I want your love

when I came to this world

I arrived in a storm

alone in the rain

falling out from the clouds

voice on the radio

crying 96 tears

see our reflection

cast no reflection

I want your love

when I came to this world

from the inside

feeling the space

between death and life

between blocks of dreams

between walls of sleep

see our reflection

cast no reflection

I want your love

when I leave from this world

I will leave in a storm

I'll be a boy

I'll be a girl

Ill see thru glass

Ill scrape the sky

see my reflection

it's just a reflection

I want your love
