

# Easy Street

David Lee Roth

Saturday night at the corner cafe  
I had me some drinks and I'm feeling my way  
The moon's on the rise and it looks like  
A night for romance Shuffling down, pass the local hotel  
Doing the rounds and I'm under a spell  
Must be the place, yes, I knew  
When she asked me to dance I'm on easy, easy street  
I'm on easy, easy street Seeing as how I'm a regular guy  
Watching the girls of the evening go by  
I got me a chance and I'm making it  
Making it last I'm on easy, easy street  
I'm on easy, easy street So if you're feeling like you're just some lonely man  
When ever you're down in need of gentle care  
There's always easy street, you know you gotta pay  
But just remember boy, it's only a one night stand That's right  
I'll probably make it anyways  
Down that easy street  
[Incomprehensible] nasty  
Say, "Baby, what you doing tonight?"
