

# Exceptional

## Babyface

There are days when I'm so mystified  
That you have chosen me, yes  
That every night before I close my eyes  
I thank god that I'm me  
To know that you love me  
To know that you care  
To know that you give up yourself and yet still ask of nothing  
From me Your love is exceptional  
Born of a heart of gold  
It fills me up to my soul  
Then my cup, it overflows  
You're my sunshine all day, all night  
For always, for all time, baby  
You're my whole life, star shine so bright  
Your love's unconditional, so exceptional Every night when I lie next to you  
I lay in disbelief  
That I'm worthy of deserving you  
That I get to live this dream, babe  
To know that you want me  
Is to know that I'm here  
To know that I live in your heart is to know that I'm blessed  
And it's clear Your love is exceptional  
Born of a heart of gold, yes it is  
It fills me up to my soul  
Then my cup, it overflows  
You're my sunshine all day, all night  
For always, for all time, baby  
You're my whole life, star shine so bright  
Your love's unconditional, so exceptional You're my sunshine all day, all night  
Always, for all times  
You're my whole life, star shine so bright  
Your love's unconditional, so exceptional Your love is exceptional  
Born of a heart of gold  
It fills me up to my soul  
Then my cup, it overflows  
You're my sunshine all day, all night  
For always, for all time, baby  
You're my whole life, star shine so bright  
Your love's unconditional, so exceptional (Exceptional, exceptional) exceptional

(Exceptional, exceptional) exceptional  
(Exceptional, exceptional) exceptional  
(Exceptional, exceptional) exceptional  
(Exceptional, exceptional) exceptional
