Hate U!!

Dilana

Delete me from your world
Erase me from your mind
Manipulate my image too
Some think you don't recognize
Forget your shallow promises
Remember your empty words
And one day when you're sorry baby
Think of this
You dropped me
But you didn't break me
I'm not unglued

I'm still breathing without you
I keep on living with out you
My bleeding heart won't stop beating
I keep on living without you
I'm still breathing without you
God I really really hate you
But I wish you were here
Oh I Wish you were here

My memory is full of
Nothing but black and blue love
Crippled by frustration
I can still crawl my way through you
Could I make you feel my heart
Would it make you feel like dirt
And one day when it's too late baby
Think of this
You hurt me
But you didn't kill me
I still feel good

I'm still breathing without you
I keep on living with out you
My bleeding heart won't stop beating
I keep on living without you
I'm still breathing without you
God I really really hate you

But I wish you were here
Oh I Wish you were here

You cut me
But you didn't scar me

I'm still breathing without you
I keep on living with out you
My bleeding heart won't stop beating
I keep on living without you
I'm still breathing without you
God I really really hate you
But I wish you were here
Oh I Wish you were here
