

Space Needle

Operators

Sleep,
Only for a little while.
Dream,
Dreaming of a little lie.
Breathe,
Breathing in the waiting room.
Believe.
Believe in what they told you. We're leaving here tomorrow,
but tomorrow never comes.
We're leaving here tomorrow,
but tomorrow never comes.
I wait and wait and wait,
I'm easy, and so are you. You've got rights.
At least you thought you used to.
Where's your rights?
Secret police in everything you do.
When you're born under glass
in the fog in the love
and separated from the world
Life.
She's got nothing much to do with you. I've loved you California
but you only leave me blue.
I've loved you California
but you only leave me blue.
I've loved you like a fire because
I'm burning too. I'm dreaming in your waiting room.
I'm dreaming in your waiting room.
Dreaming is easy cause we're dreaming too. Oh my days
I spend with you
On the screen everything's true for a moment
Wake
Wake up with me.
Stay
Stay with me.
