

Death Machine

Motörhead

Looking for an answer
And I'm looking for a clue
Looking for a chance to keep me sane
Looking for some peace of mind
Tell me what to do
Got to find a way to ease the pain
No one spoke
And silence ruled the world
And the the screams
Still today
I hear the pain we made
Death machine
Looking for a man who used to be a friend of mine
Looking for someone to share the blame
Out there in the deserts
I almost lost my mind
Got to find a way to shake the shame
Sky turned white
And all the world was blind
Nothing was seen
Then the sights and sounds came crashing down
Death machine
Looking for somebody who can tell where I am
All the directions look the same to me
Looking for somebody who pretend to give a damn
Trying to not see what I still see
Sky was red and all the world was blind
Or so it seemed
Science ruled
It never does no good
Death machine
Death machine
