

# Hands Up

TLC

Rollin' to the club  
Stop to get my grub on  
Nothin' like those Krispy Kremes  
Soon as I was done  
It was time to get my groove on  
Find a place that's happenin'  
And I knew that it was on  
From the moment  
That I walked into the spot  
It was bangin', it was swangin', oh  
Till somethin' turned me off  
I wasn't sure, coulda swore  
I saw you with someone  
And at much to my surprise, woah  
You were right there  
With your hands up in the air  
You had hoochies everywhere, all on you  
It's like I almost didn't know you  
Tryin' to shake that ass  
Playa, you don't even dance  
Wassup wit' you  
It's like I don't even know you  
Left you at the crib  
'Cause I know you get your game on  
Happens every Tuesday night  
You said that you was cool  
Your boys was comin' by  
(Go baby, have yourself a real good time)  
So I knew I could be wrong  
I was thinkin' there's  
No way it could be you  
Not my baby, he ain't crazy, no  
And my girlfriends tipped me off  
When I got closer  
I could tell that it was you  
You was bangin', you was swangin', oh  
You were right there  
With your hands up in the air  
You had hoochies everywhere, all on you  
It's like I almost didn't know you  
Tryin' to shake that ass  
Playa, you don't even dance  
Wassup wit' you  
It's like I don't even know you  
You were right there  
With your hands up in the air  
You had hoochies everywhere, all on you  
It's like I almost didn't know you  
Tryin' to shake that ass  
Playa, you don't even dance  
Wassup wit' you  
It's like I don't even know you  
Mindin' my own business, my pager's goin' off

My girlfriends tryin' to tell me, you're doin' wrong  
I needed confirmation, I knew you was a dog  
I just can't believe what I saw You were right there  
With your hands up in the air  
You had hoochies everywhere, all on you  
It's like I almost didn't know you Tryin' to shake that ass  
Playa, you don't even dance  
Wassup wit' you  
It's like I don't even know you You were right there  
With your hands up in the air  
You had hoochies everywhere, all on you  
It's like I almost didn't know you Tryin' to shake that ass  
Playa, you don't even dance  
Wassup wit' you  
It's like I don't even know you You were right there  
With your hands up in the air  
You had hoochies everywhere, all on you  
It's like I almost didn't know you Tryin' to shake that ass  
Playa, you don't even dance  
Wassup wit' you  
It's like I don't even know you
