

# Song of the Night

David Hasselhoff

The light of day is fading, you're asleep beside me  
I'd give my life if you would stay  
But this is where you leave me, closing the door behind you  
Upon the secret of your day  
Song of the night  
I'm facing a night of loneliness  
Song of the night  
I'm lost in the emptiness  
We never share your midnight melody  
'cause she's with another man, instead of me  
Song of the night  
Oh help me to fight what lies ahead  
I stand in my room and I look at an empty bed  
I need her, I want her; I just can't take it  
Oh what I would give, if you could make it  
Be alright, song of the night  
I will see you tomorrow, for one stolen moment  
I'll be at peace, a part of you  
Magic moments together, then the spell is broken  
I'm in a dream that can't come true
