

# Searching

## Inxs

I am searching  
I am not alone  
I am searching  
Please, give me some  
Have we lost direction  
Washed our hands of blood  
I'm in need of sensation  
Is there more to this love  
Saw a mother screaming  
She had lost control  
Of what she once believed in  
And she was not alone  
If you could face the pain  
And I could do the same  
It would be clear tomorrow  
But will it start, but will it start again  
I am searching  
I am not alone  
I am searching  
Please, give me some  
Saw a mother screaming  
She had lost control  
Of what she once believed in  
And she was not alone  
Have we lost direction  
Washed our hands of blood  
I'm in need of sensation  
Is there more to this love  
If you could face the pain  
And I could do the same  
It would be clear tomorrow  
But will it start, but will it start again  
I am searching  
I am not alone  
I am searching  
Please, show me some  
I am searching  
I am not alone  
I am searching

Please, show me some  
Love
