You're Not Free

Uncle Kracker

I remember you like it was yesterday
Remember the time you said you'd find me
I remember the songs that you used to play
I hear them still and it reminds me
My runaway you know you've gone wrong
For so long
So glamorous at the outset
Now, you're almost done
You're not free
You're only lost
Time to get home
And count up the calls
Livin' on dreams
That never were real
Get down to the touch
Because you can't feel
You're not free
You're only lost
Prayin' to God
You've broken the chains
One day you'll look back
And think of my name
All of your friends
Pretend you're the best
They run you around
But they could care less
They'll never see
How good it could be
No man like me
They'll never know
Just where it could go
You think you're free
You're not free
You're only lost

Time to get home
And count up the calls
Livin' on dreams
That never were real

Get down to the touch
Because you can't feel
You stumbled
And you still don't see it
The losers always think they can win
You're never gonna wanna believe it
You think you're gone
But I see you, yeah
You're not free
You're only lost
Time to get home
And count up the calls
Livin' on dreams
That never were real
Get down to the touch
Because you can't feel
You're not free
You're only lost
Time to get home
And count up the calls
Livin' on dreams
That never were real
Get down to the touch
Because you can't feel
You're not free
You're only lost
You're not free
You're not free
You're not free
