

# Get Out

## Fly My Pretties

Someone's in the kitchen, trying to cook me up some trouble  
Someone's in the kitchen, trying to stir me up inside  
He's been itching to try and burst my bubble  
All this friction is killing my appetite  
Get out, if you can't take it  
Get out, if you can't take the heat  
Throw your dirty looks out with the garbage  
Humble pie is one thing I won't eat  
Just because you're laid off at the office  
Just because it's now all up to me  
You're forgetting all the things you promised  
It's the age of equal opportunity  
Get out, if you can't take it  
Get out, if you can't take the heat  
Throw your dirty looks out with the garbage  
Humble pie is one thing I won't eat  
Oh, the kids are fine, we should use this time  
To make some plans

Oh, I know it hurts with our roles reversed  
But, darling, you'll be a better man  
Yes, I know it's hard to do the laundry  
Yes, I know it's hard to mind the kids  
It doesn't matter who does what, we're family  
I'm just working to keep us off the skids  
Get out, if you can't take it  
Get out, if you can't take the heat  
Throw your dirty looks out with the garbage  
Humble pie is one thing I won't eat  
Get out, if you can't take it  
Oh, would you get out, if you can't take the heat?  
Throw your dirty looks out with the garbage  
Humble pie is one thing I won't eat  
Humble pie is one thing I won't eat  
Humble pie is one thing I won't eat, no
