Clutter

Stellar Road

you`re sleeping in my bed
so quiet wondering what you`re thinking
is it me inside your head?
while your dreaming dream away
this clutters me
i can`t breathe
on my way to certainty
you unleash

i try to be still and let you dream
my concience overwhelming me
i`m running though it may seem so slowly
back and back to see
you clutter me
i can`t breathe
on my way to certainty
you unleash

wait for me wait for me i`ll be
wait for me wait for me i`ll be in your dream
wait for me wait for me
you clutter me

you`re beating on my head
rip away all the things that i had said
you`re waking i can see your eyes
you smile at me and see me cry
you clutter me
