The Fear Of Being Found

Blaqk Audio

I have been a world apart stuck in between time
Head into the ground I'm found falling through fault lines
I feel see through, can you see through me?
Could I change one thing? Could I change your mind?
Shall we burn it just like the last time?
I can't change a thing, can't explain why I never felt it
Not even the first time
Raise a glass and toast the flame just like the old days
Swallow, but be careful, don't drown
The new ways you could say, would you change this time?
I'll begin to change my mind when you can explain why
I feel see through, can you feel me?
Could I change one thing? Could I change your mind?
Shall we burn it just like the last time?
I can't change a thing, can't explain why I never felt it
Not even the first time
Could I change one thing? Could I change your mind?
Shall we burn it just like the last time?
I can't change a thing, can't explain why I never felt it
Not even the first time
Shall we? Nothing's different
Shall we? Nothing's different
Shall we? Nothing's different
Shall we? Nothing's different
Could I change one thing? Could I change your mind?
Shall we burn it just like the last time?
I can't change a thing, can't explain why I never felt it
Not even the first time
Could I change one thing? Could I change your mind?
Shall we burn it just like the last time?
I can't change a thing, can't explain why I never felt it
Not even the first time
