Reach Out

Scott Stapp

Welcome friends, I have nothing to hide
The journey's end has left a mark inside
I'm sure you've heard the rumors
Jealousies and all the lies
I do not fear you
Do you fear me?
Love again
I reach out
Can't give in
Learn to listen to
That voice within my soul
I reach out
Can't give in
Learn to listen to it
No victims, these choices were all mine
Looking within, these scars will heal with time
There's no excuse for weakness
Selfishness or compromise
I do not fear you
Do you fear me?
Love again
I reach out
Can't give in
Learn to listen to
That voice within my soul
I reach out
Can't give in
Learn to listen to it
I reach out
I reach out
Can't give in
Can't give in

I reach out
I reach out
I give in
Can we start again?
I finally hear this reason
I wish there was no fall

I'll never be alone again
Screaming at the walls
I reach out
I reach out
I reach out
I reach out
I reach out
Can't give in
Learn to listen to
That voice within my soul
I reach out
Can't give in
Learn to listen to
I reach out
Can't give in
Learn to listen to
That voice within my soul
I reach out
Can't give in
Learn to listen to it
Learn to listen to it
Learn to listen to it
Listen to
That voice within my soul
