

# Golden Glow

## Prince Rama

I tried to undiscover you  
I tried to discover you  
but you were gonegone  
gone  
goneI saw your shadow  
on the moon last night  
while you call  
call the ocean  
to your toes thatsink in the sand  
they have built a  
vault in the arctic  
to hold a seed  
from every landdo you feel the tide is rising ?  
I will heal my broken arms around  
your waist of pillared salt  
I will trace the names of the dead with eyelashes  
against your wall  
I felt a cloud of your breath pass through my cold, unfurling hairlet's christen this place a secret  
hid between the here and there will you raise your voice to the morning  
will you raise your voiceHallelujah !  
Hallelujah !  
Harken harkenwith you limbs of leather, you are paralyzed  
I lifted up your face up, up to the heavens  
but you closed you eyes  
harken harken  
the winter surrenders shadows lift their heavy hand  
the locusts in their subterranean kingdom  
divvy up their land will I see your face once more, one morebefore I leave this place ?  
I thought I saw your figure go,  
but all that was left was a golden glow
