

# Winchester Cathedral

**Frank Sinatra**

Oooh, Winchester Cathedral, you're bringin' me down  
You stood and you watched as my baby left town  
You coulda done somethin', hey, you didn't try  
You didn't do nothin', you just let her walk by  
Now everyone knows just how much I needed that girl  
She wouldn't have gone far away if only you'd started ringin' your bell  
Winchester Cathedral, you're bringin' me down  
You stood and you watched as my baby left town  
Hey, Winchester Cathedral, you are bringin' me down  
You stood and you watched as, you watched her go by, my baby left town  
You coulda done somethin', but you didn't even try  
You didn't do nothin', you didn't ding-dong, you let her get by  
Now everyone knows just how much I needed that girl  
She wouldn't have gone far away, if only you'd started ringin' your bell  
Now, Winchester Cathedral, man, you've brought me down  
You just stood there and watched as my baby left town!
