

# Please Don't Let Me Go

## Wretch 32

Listen uh Look i didn't wanna separate  
But with bad gravity, how we gonna elevate?  
Sometimes you get closer from a step away  
And I'd never say  
Please don't let me go

But I just wanted her to hold me  
Its funny, i was trying to better her with the old me  
If you don't wake up to love, why go sleep?  
In the cold sheets  
Please don't let me go

So none of us would fall down  
We could wear camouflage in a war house  
I ain't trying to run your life or I walk out  
Let your thoughts out  
Please don't let me go

And we can go our different ways  
That don't mean I wanna see my son on different days  
I say that with a passion like the lyrics on my page  
And we wont live again so  
Please don't let me go

I just want you to hold me  
I don't want to be lonely  
I'm flying close to the ground  
Please don't let me go  
I'm flying close to the ground  
Please don't let me go

This is probably the first sign of madness  
But as a boy I was going through made stress  
I turned man of the house when my dad left  
But I never had rent  
please don't let me go

Sixteen on a bad flex  
Mum told me hit the roads with my bags them  
Look I was going through a phase and if I had sense

I was just acting  
Please don't let me go

Cah I was close to a dead end  
Cah you're still on your own with your friends them  
I said I was cool I was fending  
I was just pretending  
Please don't let me go

But I thank her for all of that  
Cos' she taught me how to walk without crawling back  
And now I'm running forward no falling back  
This is what you call a rap

I just want you to hold me  
I don't want to be lonely  
I'm flying close to the ground  
Please don't let me go  
I'm flying close to the ground  
Please don't let me go

This is the sound  
Of the harmony  
You make me sing  
You bring out the best of me  
In every special way  
Hey!  
Please don't let me go  
Don't let go  
Don't let go  
Hey!  
Please don't let me go

I just want you to hold me  
I don't want to be lonely  
I'm flying close to the ground  
Please don't let me go  
I'm flying close to the ground  
Please don't let me go
