Hellostereo!

Love, this is getting harder
And I can't seem to pick you out of the crowd
But you my dear, have been discovered a liar
And I'm afraid that this is building up for far too long
And this is not the time or place for us speak like this
(Even if I had the thought I'd never dream of it)
So dry your hollow eyes and let's go down to the water
In a different time or place the words can make more sense
(In this perfect world, the future wouldn't make it down)
So dry your hollow eyes and let's go down to the water
Even though it's the last time
Love, this is getting the best of me
And truth be told, you were the start of it all
Now you my dear, might end up lonely
Before you go there's something you should know
And this is not the time or place for us speak like this
(Even if I had the thought I'd never dream of it)

So dry your hollow eyes and let's go down to the water
In a different time or place the words can make more sense
(In this perfect world, the future wouldn't make it down)
So dry your hollow eyes and let's go down to the water
Even though it's the last time
This is not the time or place for us speak like this
(Even if I had the thought I'd never dream of it)
So dry your hollow eyes and let's go down to the water
In a different time or place the words can make more sense
(In this perfect world, the future wouldn't make it down)
So dry your hollow eyes and let's go down to the water
Please, let's not speak, don't breathe a word
Even though it's the last time
Please, let's not speak, don't breathe a word
Even though it's the last time
