User is online
I got your email
Disgruntled female
Every detail
Before my eyes
So I responded
I think we bonded
We corresponded
And watched the sunrise
Then you came through the screen
And you taught me the meaning of happiness
And the words that you write
Came and filled up my night with your tenderness
And if you're ever so inclined
Here's where you can find me
(www.)
I won't believe it
(www.)
Until I read it
My heart is tied up in a knot
You know it's true
Www.nevergetoveryou
You made it clear to me
Described your fear to me
Of getting near to me
And risking our friendship
I stayed up all night
Construction website
Just click on our fight
And watch me crying
'Cause you said you were scared
And should probably stick to the Internet

And it hurts because deep down inside
I believe we are more than friends
And if you ever change your mind
Here's where you can find me
(www.)
I won't believe it
(www.)
Until I read it
My heart is tied up in a knot
You know it's true

Regarding the way we are together
Regarding the way we both should be
Regardless of time or space or weather
A part of you lives inside of me
So if you ever change your mind
You know where you can find me

I won't believe it
(www.)
Until I read it
My heart is tied up in a knot
You know it's true
