

I Need a Cowboy from Hell

Crucified Barbara

Watch your back, i'll hunt you down down
You won'y get peace 'till
I've got my rock'n'roll in your fucking face
Your fucking face,
You're so sweet and I can't breath now,
You're coming closer, so much closer

It's the smell of your heart
When it's breaking apart
But you like to rock'n'roll and
You know i want it all

Hey, hey, hey, come a little closer
Hey, hey, hey, feel me
Give it to me
Lick up the limelight, the taste of my stage
Come on baby, do it
Give it to me

So you're back, i can't believe it
You're so damn cute but
I need a cowboy from hell
And you are not, you are not
Oh man, You can't breath now
When true life strikes you
True life strikes you

It was never meant to be so good for you
But you like to rock'n'roll and
You know i want it all

Hey, hey, hey, come a little closer
Hey, hey, hey, feel me
Give it to me
Lick up the limelight, the taste of my stage
Come on baby, do it
Give it to me

Watch your back...
I'll hunt you down down

Give it to me... Give it to me

Come on baby, do it

Give it to me
