

# In Tiburon

## Van Morrison

Across the Bay the fog has lifted  
Down here... In Tiburon  
That's what she said  
When she was sitting looking  
Out at the Golden Gate ... In the morning dawn  
Across the Bay... In San Francisco  
"The City Lights" in Ferlinghetti's day  
North Beach, alleyways and cafes  
Kerouac and Ginsberg ...Gregory Corso and Neal Cassady... all held sway  
As Geraldine would playCast your feet to the wind and the distance  
Lenny Bruce got busted at "The Hungry I"  
"No Name Bar" down in Sausalito  
Across the street where Chet Baker used to play  
My heart was beating on the hillside  
\_\_\_\_\_ In Tiburon  
I need to take me back ... back down to Frisco  
Now we need each other... Need each other to lean on---Interlude---  
As Geraldine would play  
Cast your feet to/feet to the wind and we listened  
In the evening across the way  
Chet Baker would play down at "The Trident"  
With his horn, he blew everybody away  
"The Cliff House" down in the Seal Rock Hotel  
Fog horns blowing all night long 'til dawn  
Geary Street \_\_\_\_\_  
Left their homeland a long while ago  
Some have stayed, but others not for so long  
My heart was beating on the hillside  
\_\_\_\_\_ In TiburonTake you back down to San Francisco  
Now we need each other more than ever to lean on  
Now we need each other more than ever more than ever to lean on  
Lean on me ... Lean on  
Now we need each other more... than ever... to lean on  
Back to City Lights...City Lights  
North Beach and Broadway  
We need each other...Need each other to lean on  
Back to City Lights and North Beach... North Beach and Broadway  
We need each other Need each other to lean on
