

Well Run Dry

Phat Phunktion

Monday morning, 10 am
Been awake since Friday, veins full of sin
Can't go home this way again
Devil's knockin, let him inAll night, all day
After a while its all the same
No pride, no shame
Gotta try to break the chainWent down to the well too many times
Bring me back from hell, let the water clear my eyes
Now I can see the well run dry
Can't believe how I used to be
Till my true friends came and rescued me
It's a long road to be free
Devils gone, now I seeAll night, all day
After a while its all the same
No pride, no shame
Gotta try to break the chainWent down to the well too many times
Bring me back from hell, let the water clear my eyes
Now I can see the well run dryAll night, all day
After a while its all the same
No pride, no shame
Gotta try to break the chainWent down to the well too many times
Bring me back from hell, let the water clear my eyes
Went down to the well too many times
Bring me back from hell, let the water clear my eyes
Now I can see the well run dryNow I can see the well run
