

How Can I Believe In You

[Daryle Singletary](#)

Lyin' here with my head on my shoulder
That used to be my place to dream
Now it only makes the cold nights colder
I'm afraid of what our future brings Holding you is like holding a stranger
We becoming strangers and girl it's killing me
You ask me to believe that it's not over
But how can I believe in you when you be leaving me Anymore when you tell me you love me
Somewhat it just don't feel the same
And I can't help believing there's another
You've been whispering in your dreams Holding you is like holding a stranger
We becoming strangers and girl it's killing me
You ask me to believe that it's not over
But how can I believe in you when you be leaving me
