Like a rush hour she wanna keep rushing in  
Inna me room every gal come sit back, yes dem relax  
Them love it when I do it, upset when I don't  
Them love it when they call I don't answer the phone  
Talk a bag of things on the net, on the phone  
Say they wanna leave me but they wont leave me alone  
They love because I'm cool  
They love to say I'm smooth  
And they love the things I do  
I make them feel beautiful  
Oh yea, oh yeah  
Girls from all over keep on calling  
Like a rush hour show dem keep rushing in  
Inna me room every gal come sit back, yes dem relax  
Them love it when I do it, upset when I don't  
Them love it when they call I don't answer the phone  
Talk a bag things, on the net, on the phone  
They say wanna leave me but they wont leave me alone  
Wine for me my lady, show me that you love me  
Do the things I wanna do for me  
Everything just ask if my baby  
You know that you are my number one woman, you are my lady  
Girls from all over keep on calling  
Like a rush hour show dem keep rushing in  
Inna me room every gal come sit back, yes dem relax  
Them love it when I do it, upset when I don't  
Them love it when they call I don't answer the phone  
Talk a bag things, on the net, on the phone

Say they wanna leave me but they wont leave me alone

    Never let go, never let go

    Never let go, never let go

    Never let go, never let go

    Never let go, never let go

Girls from all over keep on calling

    Like a rush hour show dem keep rushing in

Inna me room every gal come sit back, yes dem relax

    Them love it when I do it, upset when I don't

    Them love it when they call I don't answer the phone

    Talk a bag things, on the net, on the phone

Say they wanna leave me but they wont leave me alone

    Center of addiction

    Knocks me off my feet

    Center of attraction

    Gotta come and see

    Center of addiction
