## Fink

Come a long way, come a long way  
Come a long way  
Not to work it out  
As cold comfort  
wraps around you in the dark  
Come a long wayCome a long way  
not to ask the question that's been on your lips all the way  
Spit it out  
The words come out, yeah  
it's already  
not as heavy as before  
Come a long way  
Come a long way  
Come a long wayCome a long way  
Just to say  
Doesn't matter when it mattered yesterday  
And tomorrow ain't too far  
Come a long way  
From small beginnings  
Come a long wayFrom small beginnings  
Come big endings
