

# Incognito

## Freddie Jackson

To every other guy, with the perfect ten  
Fun is what I've seen since I don't know when  
You should be on the cover of Essence magazine  
You could be on stage like a super model beauty queen  
Yes, you could, babe  
They should treat you like a star  
This is what you truly are  
Believe me, baby  
You can do so much better  
You don't have to be somebody else  
You got me now, baby, baby  
If you only need  
You'll never be incognito  
They should treat you like you were a pearl  
But that girl is only special, girl  
I'm used to wifey material  
You should know that it ain't that serious about you, baby  
He is acting like you don't exist  
I'm looking number one upon my list  
Believe me you can do much better  
You don't have to be somebody else  
Incognito  
If you only need  
You'll never be incognito, oh, baby  
I'll do anything to get with you  
Just call me I'll be right there  
Girl, you know that he's not right for you  
You're right for me  
You don't have to be somebody else  
Incognito, no, no, baby  
If you only need  
You'll never be incognito  
I will love you more than my buddies  
Leave them all the girls for you honey  
Turn my life around if you want me  
Quit the saddle down if you want me  
Be your entourage in a minute  
Parking your garage if you willing  
Always take you there when I hit it  
Anything that you want I can get it
